

**Amendments to the Specification:**

Please replace the paragraph on page 4, lines 30-33, with the following amended paragraph:

The pressure chamber frame 10 and the piston body 54 [[56]] form a hydraulic cavity 58 below the piston body 54 [[56]]. The pressure chamber frame 10, the sealing plate 38, the piston body 54, and the piston neck 56 just above the piston body 54 form a pneumatic cavity 60 between the piston body 54 and the sealing plate 38.
